SAN RAMON, August 11th -- Amcom Technology is pleased to announce that Pano Valcanas will be joining the Product Development Team in our Amcom Computer Services division.

Pano's extensive background in delivering not only the infrastructure needed to support B.I, but the business practices and processes needed for our customers to be successful.

Pano's background includes extensive use of PMI/PMBOK principles, data warehousing technologies, B.I delivery mechanisms, coupled with a Masters in Information Technology.

Amcom Technology is a member of the Amcom companies located in the San Francisco Bay Area (San Ramon). The company provides premium end-to-end technology services from Web 2.0/RIA software development, to network infrastructure and business intelligence.
